

Ontario Clean Air Alliance

October 2007 Provincial Election Questionnaire

Question: Do you believe that the Minister of Energy should issue a directive to the Ontario Power Authority, pursuant to Section 25.30 of the *Electricity Act*, telling it to cancel its plans for the East Toronto Transmission Line; and develop an alternative strategy consisting of energy conservation and small-scale local generation to meet the electricity needs of downtown Toronto?

Answer: (Please circle one)

- a) Yes < YES
- b) No
- c) Undecided

Additional Comments: Small-scale local generation is the ONLY WAY TO GO. We need to have the government issue a directive to the hydro companies to make it mandatory for all residential homes in the provincial to have solar panels installed on their roofs. This can be done by the hydro companies and a small surcharge of \$5 to \$10 dollars can be charge on one's monthly (or bi-monthly) hydro bill to help pay for the costs of the solar panel and it's installation.
