Question #1: *Do you believe the Government of Ontario should issue a legally binding regulation requiring the phase-out of coal burning at the Nanticoke Generating Station by 2009?*

Cory Judson's response:

Yes.

As MPP I will hold the McGuinty Liberals to account for their commitment to shut down Nanticoke by 2009. They are in government, they can allocate resources, they have the authority. Unfortunately, for the last four years they have refused to take action on this, and so many other issues that effect our environment. I believe the government should focus on efficiency, cogeneration and renewables to meet their commitment. While the Liberals have refused to act Ontario 's biggest polluter continues to damage our air. They have to fix it. I will pressure them to do so, and to act on other environmental issues.
