Ontario Clean Air Alliance

October 2007 Provincial Election Questionnaire

Question: Do you believe that the Minister of Energy should issue a directive to the Ontario Power Authority, pursuant to Section 25.30 of the *Electricity Act*, telling it to cancel its plans for the East Toronto Transmission Line; and develop an alternative strategy consisting of energy conservation and small-scale local generation to meet the electricity needs of downtown Toronto?

Answer: (Please circle one)

a) (Yes)
b) No
c) Undecided

Additional Comments: I lived in a neighbourhood that has hydro towers (lines) in fact they are located directly behind my parents home. They are a hazard in many ways. Studies have shown them to be affecting children's abilities at school. There are better alternatives and Ontario needs to rethink its current strategy.
