Subject: FW: Pickering Nuclear Station's pressure tubes

Dear Sir / Madam,

On behalf of President Velshi, I acknowledge receipt of your follow-up letter of April 7, 2021 regarding the safety of the pressure tubes at the Pickering Nuclear Generating Station (PNGS) and your request for an interim moratorium of the PNGS operations.

As my letter dated March 31, 2021 (attached) already addressed this matter, a further response to your April 7 letter will not be provided.

Regards,

Marc Leblanc
